

mateQ84.X/mcc_generated
_files/clc7.c

```
graph TD; A["mateQ84.X/mcc_generated_files/clc7.c"] --> B["clc7.h"]; A --> C["xc.h"]; B --> C; B --> D["stdint.h"]; B --> E["stdbool.h"];
```

The diagram illustrates a dependency graph for the file `mateQ84.X/mcc_generated_files/clc7.c`. This file is the root node and has three direct dependencies: `clc7.h`, `xc.h`, and `stdint.h`. The `clc7.h` header file further depends on `xc.h`, `stdint.h`, and `stdbool.h`. The nodes are represented by boxes: the root node is a dark gray box, `clc7.h` is a white box with a black border, and the other three are light gray boxes. Blue arrows indicate the direction of the dependencies.
